

CALL FOR POSTERS

22nd International Conference on INFORMATION SYSTEMS FOR CRISIS RESPONSE AND MANAGEMENT

(ISCRAM 2025 Conference: www.iscram2025.com)

May 18th-21st, 2025

 Halifax, Canada @ Marriott Harbourview Hotel

[Dalhousie University & Halifax Regional Municipality Emergency Management](#)

INTRODUCTION

On behalf of the ISCRAM 2025 Conference Committee, we are delighted to invite you to submit a proposal for a Poster presentation. We look forward to your participation in showcasing your work to a dedicated, international audience of ISCRAM researchers and practitioners, all while enjoying the charming city of Halifax!

TOPICS of INTEREST

The theme of the ISCRAM 2025 conference is “**Managing and Responding to Coastal Disasters and Climate Change.**” Coastal communities are particularly vulnerable to various natural pressures associated with the ocean and atmosphere, whether slow-acting, such as erosion or salt-water intrusion, or precipitous, such as hurricanes or storm surges. Innumerable studies and policies focus on community adaptation and improved resilience, but some hazards inevitably overwhelm the social system, requiring emergency response. Some of these natural phenomena are exacerbated by climate change, which can affect the frequency and/or the severity of adverse events.

Poster topics that fall within ISCRAM’s scope are acceptable, and those that address this year’s conference Theme or topical Tracks (listed below) are particularly welcome:

- Analytical Modeling and Simulation
- Usability and Universal Design of ICT for Emergency Management
- Enhancing Protection of Critical Infrastructures
- Command & Control Studies

- Disaster Public Health & Healthcare Informatics
- Impact-driven Emergency and Crisis Management
- IT solutions for Crisis Management
- Visions for Future Crisis Management
- Social Media for Crisis Management
- Emerging topics in wildfire evacuation: Connecting First Responders and Residents through data
- Emergency Management for Remote Communities and Infrastructures in Harsh Environments
- Volunteers in Crisis and Emergency Management
- Climate Change Modelling to Improve Coastal Community Resilience
- Pracademics in the International Red Cross and Red Crescent Movement
- Data, Planning, and Modelling for Mass Evacuation Challenges
- Threats and malicious actors: crisis management for security incidents
- Digital Information Ecosystem Resilience to Climate Change Risk

HOW TO SUBMIT

To be considered, **please submit an abstract of your poster using the supplied template**. The abstract of **350 - 500 words**, should outline the main theme of your poster and its connection to ISCRAM topics or to the ISCRAM 2025 theme. Your abstract will be published in the Conference Proceedings.

At least one poster author must register for and attend the main conference. All submissions will be made electronically using the provided ISCRAM template. Please send your abstract document to iscram2025@dal.ca by **February 23, 2025** (with Subject Line: "POSTER Abstract"). The review results will be communicated by March 5, 2025. In case of further questions, please do not hesitate to contact us via email.

Abstract template (MS Word)

Please email your submission to iscram2025@dal.ca with subject line "POSTER Abstract."
