INTRODUCTION TO THE DOCTORAL COLLOQUIUM

Following the ISCRAM tradition, the Doctoral Colloquium will take place prior to the main conference, on Sunday May 18, 2025. The colloquium is dedicated to Doctoral students, Postdoctoral fellows, and Master's students enrolled in a research programme, seeking careers as researchers in public, private and academic organizations with research interests in emergency and crisis management.

The goals of the ISCRAM 2025 Doctoral Colloquium are threefold:

- To develop and sustain a network of young scholars conducting high quality research in the area of Information Systems for Crisis Response and Management.
- To support the next generation of emergency and crisis management researchers by addressing issues relevant to the progression of a research career, such as communication skills, leadership, and project management.
- To allow participants to discuss their research with leading specialists, scholars, and peers in an international setting.

Students will present their work to the group with substantial time allowed for discussion and questions by the colloquium chairs, mentors, and other students. This may help students further develop their research designs, results, and analyses such that they can produce high-quality research, theses, and publications. The colloquium will also address several other professional development topics through talks and discussions.

COLLOQUIUM APPLICATION

Eligibility

The aim of the colloquium is to support PhD students and Postdoctoral fellows with their research and career development. However, Master's students enrolled in a research programme are also encouraged to apply. All participants are requested to provide the information in the Doctoral Colloquium application [form](#).

Cost

Participation in the ISCRAM Doctoral Colloquium is **free**, and breakfast, lunch and refreshments are included. **However, all participants in the Doctoral Colloquium must register for the main conference (a student rate is available).**

How to Apply

To apply, candidates should submit the completed application form in WORD by **February 16, 2025** via our email iscram2025@dal.ca with subject line: **“Doctoral Colloquium”**.

Applicants will be notified by **February 28, 2025**. This will allow successful applicants time to apply for visas (when necessary) and make travel arrangements.

If you have any questions, please email the organizers at iscram2025@dal.ca with subject line “Colloquium query”.
